

Moving a 50,000 lb Mold Easily through the Manufacturing Environment

Our [TITAN 3160 Mold Transporter](#) or Mobile Straddle Crane Transporter is capable of lifting and moving tools as heavy as 50,000 lbs. Hydraulic lift and DC powered drive make this a versatile tool for moving heavy loads anywhere in your facility. It features a ride-on station, (and optional walk along tethered control) mold lift hook, and clamps to hold mold during travel.
