Heavy Duty Industrial Steel Saw Horses

Green Valley Manufacturing Heavy Duty Industrial Steel Saw Horses (work stands) can be engineered to meet the load bearing capacity, height, and configuration needed in the manufacturing environment.

These Titan Saw Horses shown here have a load bearing capacity of 40,000 lbs. per pair, and are shown with spring suspension wheels (right) which raise the frame to easily move the unloaded horse.

FABTECH 2015 SHOW SPECIAL EXTENDED TO DECEMBER 31ST

DISCOUNTED HEAVY DUTY INDUSTRIAL SAWHORSES

Video shows the 20,000 lb capacity sawhorses (each weighing over 400 pounds) easily staged without cranes or forklifts.

No Heavy Lifting Required.

We not only design and manufacture these sawhorses, we use them in our manufacturing facility.
